Brenda Davis

Senior Accountant, City of Detroit

Objection to City of Detroit Plan of Adjustment

I object to the City of Detroit Plan of adjustment being a City of Detroit employee for 17 Years, I feel that the City imposed it City Employment Terms (CET) on it employees. I am a granted funded employee and have been since 2000, my wages and benefits are being paid for by federal Government and its not being charge to the general fund from the City of Detroit. It a Federal laws that you have to bargain in good faith and the imposed CET are not good faith bargaining. The City also took away out incentive benefits (one hour lunch, longevity payment, bonus vacation days, sick leave accruals, low cost medical benefits, annuity % interest return). My Spouse is a Heart Transplant patient and his co-pay for the forced CVS Caremark is Crazy he spends over \$300 a month just on medication and he must take his medication every day. I feel shame on them for imposing benefits and wage cuts on the employees.

I believe that I shall receive 100% of my pension because as stated before my position with the city have always been 100% being paid by federal government grants program that included salary and benefits. So is the city going to reimburse the federal government for my pension cost and my 10% wage cut that they receive for my position? From 2000-2006 my salary and benefit was being charged from the Healthy Start Grant, 2006-2012 my salary and benefit was being charged from the Community Block Grant, 2012- Present, my salary and benefit are being paid from Community Development Block grant. All these were being paid for from federal government. So, I really don't understand why my pension should be cut whenever I retire. The EM law was voted on and repealed.

I feel that we as the city employees are paying the price of having our wage cut and paying more for medical when the city keeps awarding these consultation with a hefty contract and that work that they are doing a city employee can do.

Sincerely

Brenda Davis
